**How it works.** Teams work together to solve puzzles and complete the story. The game is presented in stages, which allows teammates to focus on the same step at the same time. It plays like an escape room, but instead of focusing outward, teammates focus inward and work together. The game cultivates:

**Teamwork.** Leaning on each other's skillsets.

**Communication.** Talking through problems and piecing ideas together.

**Leadership.** Getting a holistic view.

**Pattern recognition.** Finding the hidden patterns in everything.

*"I seriously think it's the most fun activity I've ever done.*

*I've done a few escape rooms before, and some puzzles like this one, but this was by far the most fun team building activity I've ever experienced.*

*15/10"*
